

Appendix 3-5
Irrigation Plan

Irrigation Plan

Duration: During Contemporaneous Reclamation when the groundcover and litter if below 80%.
May - September.

Areas: Area below Powder Magazine bench and above Main area.

Frequency: When precipitation is below 1/2" per week.

Quantity: 1/2" per week

Records: Record rainfall events and irrigation dates and quantities.

Termination: Each June the Division and Genwal will make a joint inspection of the area. When groundcover and litter are at 80% or better, irrigation will be discontinued until the following June.
